Enhancements

Enhancements are how we create and alter the atmosphere throughout the night - from elegant uplights throughout your venue, to AI Club Style Lighting on your dance floor, and even a dancing on the cloud effect for your first dance. Your choice of enhancements combined with our DJing will differentiate your wedding and make it stand out from all the others.

Ceremony Audio

This allows us to have a separate setup for all the ceremony formalities anywhere on the property. We'll catch the audio of your ceremony by using lapel microphones that allow us to 100% guarantee that every word said will be heard by every guest.

Venue Up-Lighting

You spend lots of time coordinating your wedding colors. Venue Up-Lighting brings it all together by lighting up the walls of your venue in your colors. This creates a unified atmosphere throughout the venue from cocktail hour and dinner to dancing the night away.

AI Dance Floor (Club) Lighting

On the flip of a dime, we can make your reception come to life with computer-synchronized lighting. The dance floor lighting will match to the beat of your music, creating an atmosphere that will keep everyone on the dance floor.

Dancing On The Cloud

Let us transform your first dance into a truly unique and memorable experience that you will talk about with your friends and remember forever. (Afterwards, there is no moisture left on the floor and no fog left in the air. This does not set off any smoke or fire detectors.)

****subject to venue approval****

Custom Monogram

Elevate your reception or ceremony with a personalized projection featuring your names, custom wedding logo, or even the lyrics to your first dance song. Your unique static or in-motion image can be projected onto the dance floor or any wall surface, adding a touch of magic to your special day.

LED Party Sticks

Add some fun to your reception! We will provide these awesome LED foam sticks for all your guests during the dancing/party portion of your reception. And yes, they get to keep them.

Audio Guestbook

A unique way for your guests to share their best wishes during your event. This allows guests to record personal voice messages, which are then saved as lasting memories. The Audio Guestbook is a creative and emotional way to capture your guests wishes and thoughts, going beyond the traditional written guest book.

Premium Enhancements

CO₂ Blast

Bring the impact of the nightclub experience to your dance floor with a CO2 blast. This feature promises a serious WOW factor, igniting your party with an electrifying atmosphere and providing unforgettable Instagram-worthy moments for you and your guests.

Salsa Photo Booth

Looking to add an extra element of excitement to your wedding celebration? Look no further than our most popular Premium Enhancement, our Salsa Photo Booth! Our interactive and lively photo booth experience will leave your guests with unforgettable memories.

Strike a pose, grab a prop, and let loose as the Salsa Booth captures the joy and laughter of your loved ones. Our Salsa Photo Booth is completely social, allowing you and your guests to send photos via text or email from the moment pictures are taken. At the end of the night you will also receive a link to all the photos from your event.

BEST. DJ. EVER!!!

Bernardo was such a huge part in making our wedding night absolutely perfect. From the start of booking, he made sure we were informed on his process and always on the same page. He answered all of my (many, and probably annoying) questions promptly and with a great attitude!!! Leading up to the wedding, I was worried about plenty of things - but I was fully confident in him and never had to stress over how the music would go. He made sure the whole day went smoothly as our MC, and curated playlists for each part of the day based off of some music I had picked out. He knew how important the music was for me, and he **KILLED** it. The dance floor was packed all night, and I loved just getting to party with everyone I love worry-free.

Finding vendors for your wedding can be scary - it's such an important day and it's really hard to know how they'll be day of. You can stop right here knowing you can put your **FULL TRUST** in Bernardo to make sure your wedding is the best night ever!

Sara Hawkey

Bernardo is a wonderful human and great DJ! He jumped in as our DJ 1 month before the wedding and everything was perfect despite the lack of time to prepare. He was organized and listened to what we wanted. We loved working with him and would recommend. We got multiple compliments on the music choices from our guests!

Emily Kopycinski

Bernardo was **AMAZING!** He was our DJ for our wedding and I could not be happier! He was in contact to make sure I had all the things covered. He even helped with some things I didn't even know I needed!! I gave him some ideas of what we liked and he kept the party going!! Thank you so much for making our wedding the **BEST DAY EVER!!!**

Nicolas Boal

Bernardo was an absolutely amazing DJ for our wedding, it would not have been the same without him. From prep meetings ahead of time to learn about our likes/dislikes, to working with us to edit the perfect version of our first dance song, Bernardo was on top of everything and made it super easy for us. The dance floor was full the entire night and he was quick to mix things up if it felt like it was slowing down. I cannot recommend Bernardo enough if you're planning a wedding or any event where you want people to have a blast!

Liz Charlton

Where to begin to describe how great Bernardo is! He was extremely attentive when meeting with us and really got to know us personally. Prior to the wedding and day of, he was super communicative, and made sure that everyone was on the same page. Day of, transitioning from the ceremony, to cocktail hour and then the reception was so easy thanks to him! Bernardo played a huge role in making our wedding day a wonderful experience and was quick to adapt to any setbacks or adjustments. I cannot recommend Wave Source Media enough and without a doubt, Bernardo is one of the best DJs around!
